SAN JOSE DE FLORES
TO BE LET, from April onwards, this commodious substantially built and admirably planned and appointed Mansion, at present, and for several years back in the occupation of William Wilson Esq.
It is situated in the healthiest and most convenient part of Flores and stands in the midst of its own tastefully laid out grounds of over 12,000 sq. varas.
The house has an unusully spacious entrance hall, with Minton tile floor, and the Dining and Drawing rooms are handsome large and well proportioned. In addition to 11 other rooms it contains Antecomedor, Pantry, Store-room and Wine cellar, and in the patio adjoining the house are found all the usual offices and servant's quarters.
Conveniently placed at some little distance from the house are:—an excellent Cottage of four rooms, coachhouse, harness room and capital stabling for four horses. There is also ample accommodation for several cows, for which a portion of the land has been laid under alfalfa.
The house and outbuildings are in excellent repair, and the grounds in the best possible order.
For terms and further particulars apply at 149 Calle Rivadavia.

GILLARD'S
SHEEP DIP

This Dip is most carefully prepared by the latest improved methods and can be used with

Supplied to the Prince of Wales's Farm at
SANDRINGHAM
TESTIMONIALS.
From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock."
From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

HAVAS' AGENCY

London 13th.

It is officially stated that all the European Powers (Turkey included) are in complete accord about Egypt. All the fears aroused by the Anglo-French Note have disappeared.

LATEST NEWS.

PRESS TELEGRAMS

The following epitome of the latest news by telegraph, from all quarters, is taken from our colleagues—

Montevideo 13th

Shocking free fight at a masquerade ball at the Reducto, about women. Seven men, all Italians, went at each other with revolvers and daggers, the upshot being one killed by several bullets in the stomach, and another with three slashes on the head.

Fifty one cases for your Exhibition were shipped to-day; amongst them is a large altar made at Paris do: the little steamer built at the School of Arts for the show will be launched in a day or two.

Conrad Rucker elected President of Deputies, Candid Bustamante 1st Vice, and Mick, Gonzalez 2nd Vice.

Difficulties are anticipated in carrying out Vidal's resignation and Santos's election.

Chascomus 13th

Official—Passenger train due here at 9.25 ran into cargo train from Dolores about 1½ league from here.

The engine-drivers saw each other plainly for fully 10 squares, but could not stop their trains, and jumped off their engines just before they crashed into each other.

Two guards and a stoker injured. The drivers have been arrested.

Valparaiso 13

Two battalions disbanded in Oruro. It is generally believed that there will be peace with Bolivia and that her alliance with Peru is broken.

Luis S Vega has arrived here, in connection with peace conference at Tacna.

Military Tribunal in Lima reorganized. The *Situacion* says that Montero abducted a girl from a convent in Cajamarca, and that his term of power will soon be at an end.

Spanish Minister in Lima gave grand banquet.

Chilians occupied Ica without resistance. Prefect Mas fled after committing all kinds of excesses.

Several ports north of Calla declared open, dependencies of Callao Custom House.

Trescott and Balmaceda had a conference yesterday at Viña del Mar.

Montevideo 14th

The *Epoca* of Valparaiso announces that Montero has formed a Cabinet.

Union nitrate works at Iquique stopped.

Hector Varela named Oriental Consul in Barcelona.

Baths at Pocitos and Playa Ramirez in full swing again.

Navarro 14th

A fire that broke out at 12½ o'clock and threatened the squares between Calles Lujan and Buenos Aires, has just been extinguished, as Mr Casanova's house was beginning to burn. Loss about 40,000 m/c. Police and people behaved well.

Montevideo 14.

Iberia from West Coast arrived.

Lynch and Gana ordered to march into Interior of Peru and wipe out the guerillas,

Garcia Calderon closely watched owing to rumours of his intended escape to Arequipa.

Chincha affair greatly exaggerated. The 1,000 killed turn out to be *four*, and the French Consul is alive and kicking. It is true that the place was sacked.

Grand reception to Latorre in Valparaiso after his brilliant campaign.

Chilian papers insist on campaign against the Araucanians, as combined with Colonel Olascoaga.

THE NEW THEATRE

On Monday the Municipality ordered a special inspection of the new theatre in Calle Florida, which is to be inaugurated on the night of the 17th inst. Two members of the committee of public safety, Messrs. Font and Mulhall, went over the the theatre from top to bottom, indicating to the empresarios some few increased precautions which they deemed essential.

It must be admitted that there is no other theatre in this city that affords so many protections and means of exit as this new theatre in Calle Florida. All the large doors and gates open outwards, that is to say, swing open; besides the large and spacious portico on Calle Florida, a special exit for the people in the upper galleries is supplied by means of an iron corridor with wide marble stairs that debouches in Calle Piedad. Thus, by means of this exit in case of an alarm or crush, the people in the cazuela and the gallery have an independent way out of their own, without mixing with the rest of the house. The second and third tier of boxes are connected with a patio opening on the azoteas looking out over Calle Florida, and here the Municipal Committee has ordered ladders to be constructed, which would facilitate the people getting on the azoteas of the adjoining houses. In fact, the exit here is so convenient and easy, that the whole house might find its way out of the theatre by this azotea patio in case of fire or alarm. The adjoining azoteas stretch away down and lead to others to the end of the square. Two tanks with water have been put up over the ceiling of the theatre, so that in case of fire, the manager might drown the pit at a minute's notice. The Committee require the empresario to put up two other tanks of iron over the ceiling of the stage; and these supplies are entirely independent of the hydrant and hose of the regular water supply, which are put up at five different portions of the theatre, which has always a capital supply of water in two algibes, a rather rare addition to a theatre.

The House presents the appearance of good workmanship and is beautifully finished. The iron curtain or drop scene for the stage is not yet made, but will be finished shortly, which will probably complete every human precaution that the Municipality could adopt for public protection.

GENERAL SARMIENTO

Our ex-President, who attains his 75th anniversary to-day, is certainly one of our most prolific writers, always instructive, although at times prolix and impatient of opposition or contradiction. Like Cobden, whom he resembles in many points, his opinions are rooted in such tenacious and sturdy soil that it is a moral impossibility to eradicate them. But in justice to this Argentine literary athlete, all must acknowledge that his opinions are based on sound principles and a firm, if at times rugged patriotism. We do not think that even the characteristic defects that his opponents love to impute to him, the principal of which they say is vanity, affect in any way the operation of his fixed principles. For this reason the public have nothing to do with the personal weaknesses, be they amiable or otherwise, of a public man of the undoubted talent, integrity and patriotism of Mr Sarmiento.

We are led to make these remarks after the perusal of the remarkable letters addressed by the old General to Dr. Iriondo, the present Governor of the province of Santa Fe. The text for this letters is taken from the telegrams sent to Dr Pizarro by Dr Iriondo and Mr Zavalla, on the occasion of the retirement of the former from the Ministerial Cabinet, which telegrams were remarkable for the public manner in which a seat in Congress was offered by one of the parties and the governorship of the province by the other, just as if, as Mr Sarmiento remarks, seats in Congress and governorships were the ordinary property, like inkstands and official paper, of a Governor's office. The writer adds that the impression caused by such munificent offers is that the Legislature of the Province and the people play a very insignificant part in the management of affairs up there. We have seen already that Mr Sarmiento's words are made good. Mr Pizarro has been elected simply by the fiat of the Governor, although we are far from saying that he would not have succeeded in securing a majority of votes, did such a thing as popular suffrage exist.

We will do General Sarmiento the justice to say that he always unwaveringly advocated freedom of suffrage; and has always denounced the arbitrary assumption of personal power by the governors of provinces. We honestly believe him when he says he steadfastly refused the assistance offered by some of these functionaries to raise him a second time to the Presidency. We believe the staunch old man would scorn to take office on such terms. His letters to Dr Iriondo are another honest and patriotic protest against the electoral chaos the country is falling into, in fact has fallen into; for do we not witness in every province of the Republic, without exception, the whole paraphernalia of authority, governors, ministers, comisarios, gendarmes, policemen, all assiduously at work making a dead letter of the Constitution? They say invariably they are the strongest party. Of course they are, because they have the official power to back them. But were it true that the institutionists for the time being were really strongest numerically, what is the object of depriving a large body of their fellow citizens of voting according to their convictions? But the fact is, this state of affairs obeys a moving cause that tends to a certain effect. When one section of the community is deprived of its electoral rights and does not or dares not bring forward candidates of its own, the party in power becomes careless of its own rights. The ballot box is deserted by both parties, one for fear and the other because there is no opponent to combat. It is then that the chief of the province finds his opportunity. He himself takes possession of the ballot box, and with a score or so of organized voters he establishes the one man power without difficulty, and, as Mr Sarmiento says, he makes himself omnipotent on the ruins of electoral liberty. The *Republica* is very short-sighted when in an article on the Elections of B. Aires it exclaims complacently, to excuse the small numbers of voters at the urns: 'We knew that nobody was going to oppose us; what use then of all of us going to the polls?' We repeat, the *Republica* is a very shorth-sighted politican.

NEW CAMPS.

Camp business overdone. Camps for sale everywhere!

Pavon Centro, Feb. 11.

With great interest I have followed the business going on in camps far outside since Gen. Roca took the reins of Government and order prevailing everywhere.

My wish has always been to secure good camp, but I failed to buy, and am very sorry that I did not follow the current. I have been in a position to choose amongst the best camps between Azul and Bahia Blanca at a mere song, and would have been able to realize same today at tenfold the price, the reason why I missed the chance is, that I am a bona-fide buyer, and not a speculator, and therefore I remained without camp.

I have remarked, that the bulk of the buyers of these frontier camps are lawyers, doctors, dentists, clerks, brokers, military men, and capitalists generally speaking. Very few had and have the intention to stock their camps, and they are

right. All wish to re-sell or leave them to their 'heirs 'later on.'

The true and veritable estanciero he being native, Irish or Basque, did not even think to buy them, excepting always some wealthy capitalists.

The inhabitants of this country are still too small in number, and it is not easy to find good peones, capataces and mayordomos, to whom you could trust rodeos of cows which cost half a million each, and that 50 or 100 leagues far from any human settlement, without police or security, without protection or control, without means to subsist, completely abandoned to their own energy in the desert.

A good mayordomo and good peones find easily employment in the inside camps; they refuse to go so far off, in this century at least, and if you succeed in securing some, they will return very soon!

Let some of the doctors, lawyers, dentists &c., try and make a trip to look at their properties out there! Very few will do it, and if they do, they will swear Bible in hand, never to return again. Once and for ever they will abandon the idea to condemn their children to stock and work these lands so far from any civilization, and to live a life of hardships and misery. And if this dentist, or later on his son don't submit personally to such a life, leaving it to capataces or partners, the business will be a ruinous one.

To stock these camps even on the most primitive scale 'a lo gaucho', we require hard labour during decades, enormous outlay of money and hundred of thousands experienced men. Camp labour must be learned and understood, and it is a great mistake to believe that every healthy man is fit for it.

Suppose the cost of a leagne of camp, stocked and administrated 'a lo gaucho' be.....	$ 150000
2000 cows al corte at $ 250, put out there.....	$ 500000
Expenses for settlement, patent, wages, freights &c.	$ 50000
	$ 700000

Now, Mr. *Standard*, accoading to your calculation, you are short of 8,000 leagues to put the surplus of our cattle and sheep on the present year.

8,000 leagues at 700,000 = 5,600 millions.

Where on earth do you find the cattle and sheep, the money, capataces and peones?

And I beg to state that much more than 8,000 leagues have been sold to the public.

Not even in fifty years we shall have 8000 more leagues newly stocked. Such a progress has not been witnessed even in the United States with its 40 millions of inhabitants.

Very scarce in this country are the enterprises in Australian style, working with European money and credits. The progress in our estancias is produced by the very economies of the holders, and so it is comparatively slow. The private banks don't immobilize land, and the Provincial Bank of Buenos Aires is impotent to patronize the stocking and working of 8,000 more leagues.

Rearing cattle in the solitudes of the desert may correspond (I don't say may suit) to wealthy capitalists. On these camps with pampa or hard grass the animals very seldom become fat, and never would arrive in good condition at the Saladeros or the Mataderos, the distance being to great. The only benefit for the estancieros is to be derived from selling the increase 'al corte', and that requires much time and years.

With respect of the surplus of 32 millions of sheep, which cry for camp. I might shate the following:

A certain desire to secure camps of soft grass is noticeable, but there exists still no absolute necessity. The epidemics of 1879 and 1880 have decimated sensibly the flocks.

Next June, when the lambing season is over, and if the winter be mild, soft camps will be in great demand, I believe. Still, if the animals have plenty of food, after a good winter, things may go on as they are. Prices will naturally decline, so as to enable the 'graserias' to work. If the camp becomes bad there will be no help: a new epidemic takes in charge to re-establish the equilibrium, as it happened in former years.

It is a very good sign of progress when the tendency becomes general to improve the quality and size of the sheep. Intelligent estancieros are reducing the quantity of sheep, increasing their capacities of producing more wool of good staple. At the same time the consumption of sheep in Buenos Aires, small country towns and estancias is increasing every year, so that prices or capones keep, and have always kept, very high, without prospects of a sudden and violent decline. I find that the regular killing and natural mortality of sheep has kept pace with the increase. Things may change this winter, but I doubt it very much.

To send mestiza sheep to Lincoln, 9 de Julio or Rio Negro; in fact, where, except to good camps of soft grass, or at least mixed camps, is enough to kill them: it would be as foolish as to make an oceanic voyage without supplies of drinkable water, since the ocean contains enough of water. The mestiza sheep cannot eat the hard grass and dies of hunger.

These virgin camps require to be thickly stocked by mares and cattle for 25 or 40 years before the pasto becomes mestiza and admits sheep. Sometimes only the estancieros outside keep a small flock of criolla sheep for domestic use; generally those animals are not fit to produce wool.

Gradually the zone thus conquered is extended Then mares and cows make room for sheep and the camp increases in value. But this progress is very slow, and if the speculators in camps cherish the illusion that the Hogans, Scalleys, Murphys, Echevarrias, Zaccreguigahar, and other well-to-do and intelligent estancieros buy later on these 'pampas' to rear sheep they are mistaken and may wait a long time. Let us see the year 1,900 and 'pico!'

This 'later on,' the hope in a brilliant future, more or less near, is what gives strength to the speculation. One expects to endorse to his neigbour his purchase with large benefit; others are contemplating themselves as future estancieros, always 'later on,' when they possess more money; others think to let on lease these camps and remain with them until the children grow.

But nobody appears to care for buying and still less for renting them.

Mr. Dentist, who has invested his earnings of 10 years in three-fourths of a league, begins to feel impatient. A friend presents to him a camp man, said to be very honest and willing to work hard. It is true he possesses no money. The dentist after having thought it over, is inclined to make a trial with 2,000 cows, the purchase-money and instalment of which costs him again the economies of another 10 years. He gives the whole to this honest man, on halves or thirds. From this moment begins the ruin of the dentist, because adversities never fail to come, and so far away there is no help or remedy. More money is wanted, and he applies to the Provincial Bank of Buenos Aires, which generously grants it. At the end of two years all has been swallowed up and disappeared, and the dentist remains with his camp and his debt to the Bank, but without cows or money, and utterly disgusted. It is because the dentist has not learned to be as good an estanciero as the Scalleys, Murphys and others, who would make very poor dentists.

The annual increase in our production of wool is about from 5 to 6 per cent, quantitatively and qualitatively.

In saladoro produce we have remained almost stationary. Agriculture is progressing but very slowly, at all events much slower than people generally believe in town. Those who believe that the country advances making bounds, indulge in illusions which cost them money. Our progress is constant and sound—let us not checkmate it with 'saltas mortales.'

Our virgin lands do not suit for sheep in this century, or early in the next, even if they could be stocked to-day with mares and cattle, and this being impossible, for want of men, money, and though last not least, cows and mares, and because nine-tenths of the actual holders never dream to see their purchases, much less to stock them, it results logically that most of these tracts of land will return sooner or later again to the hammer and be sold at a heavy shave. Many of the present would-be estancieros will lose patience, and the speculators being in general enterprising men, they like the movement in business. To-day they are pleased to deal in 'azziones,' to-mortow in lands, and after to-morrow they liquidate everything, losing or making money: that is not the question when he becomes tired. To get rid of it, that is the thing. Who sells first loses less.

The present speculation is more dangerous than that of 1872-73 in 'terrenos' when a small lot of 10x50 yards in the 'smiling town of Saavedra, near a charming lake,' as in the 'rising town of Dousclaar, with projected tramway, facing the plaza, church, or other imaginary buildings,' fetched from $1,000 to $5,000. This money has been thrown away; but to-day we have figures of $2,500,000 to deal with. These sums are immobilised and withdrawn from commerce, whilst the lucky sellers, be they Government or otherwise, spend the money as happy sellers or speculators used to do. This speculation is insane, and the consequences will be felt very soon.

It is a pity that these prime virgin estancia lan cannot be sold at the ring on 'Change, to be delivered 'en todo el año 1882.' What a splendid business might be done in 'descubierto,' without the fears and probabilities of being cornered.

Now, if among your subscribers are some who want to rent good ordinary estancia land of soft grass, or even good mixed grass for sheep, between Arrecifes and Parana, at the rate of one hundred thousand dollars a-year, or even a trifle more, please let me know. I will take up these lands at once and pay the rent beforehand each and every year, as I am sure to make much money out of it.

But, for God's sake, keep aloof with respect to your trying to sell to me prime outside land at the rate of from ten to three hundred thousand dollars a league: I am altogether too poor for such a business, which may, perhaps, suit bankers, not to say dentists, but never

Yours, most respectfull

Patience.

EDITOR'S TABLE

The Montevidean Chambers open to-day, and the 'peti-pieza' of President Vidal's resignation and Gen. Santos's election will be gone through. Some people anticipate a row, if not to-day, some time soon, but there are not many outward signs of it. The weather is too hot for that boisterous game, revolution.

The heat and Treasury Bills were the main topics yesterday in business circles. In high life quarters Carnival and all the approaching marriages ruled the roast. Carnival will be an awful fiasco this year; nobody takes the slightest interest in it, and we heard a grumpy subscriber utter yesterday the un-Christian wish that it may rain cats and dogs during the three days and nights of Carnival. The children and lads and lasses in their teens still display a slight interest in Carnival, but it is confined to them and the restaurateurs and barbers.

Consul Baker's most interesting report to the State Department at Washington, on the Cotton Goods import trade of this country, will be found, (slightly curtailed to fit our limited space) in our Supplemental sheet.

The news from Rio Cuarto confirms what our correspondent up there has often said, viz, that the National Powder Factory being erected there was 'not the thing'. Eolus blew down half the structure last month, and there is, of course, a hubbub. The engineer ordered to inspect the building says it was wretchedly scamped and will have to be rebuilt from top to bottom. This is the way in which more things than building are too often done. Perhaps the architect thought that, as the place was pretty sure to be blown up some day, it was not of very much consequence how it was built.

The distribution of prizes to the successful competitors in last year's Italian Exhibition, in Calle Cerrito, will take place to-morrow evening at the Florida Gardens.

The thermometer rose yesterday like a balloon with all its ballast gone. It was painfully hot—90 Fahrenheit in the deepest shade; and several young ladies fainted in getting through the task of opening their valentines. The postmen were much puzzled to make out why all the 'señoritas Inglesas" received so many letters yesterday.

The *Eco de la Exposicion* was announced yesterday. We embrace it fraternally and wish it every success. It will be a fortnightly sheet—all about the Exhibition.

We hear with intense pleasure that the feminine 'comparsas' this year will eschew the role of 'coloured ladies' of which they have hitherto been so fond. This will be a decided improvement. Original black and brown Venuses are so common here that an assumption of their complexions by the white ones is 'de trop.'

The Public Safety Committee of the Municipality—Messrs Font and Mulhall—have given the new theatre in Calle Florida a clean bill of health, and it will be opened in a few days. It appears that the facilities for cutting and running in case of fire are all that could be desired.

The laying of the foundation stone of the new chapel of the Virgin of Sion, in Calle Piedad, nearly opposite the Lacroze Tramway station, took place on Sunday evening last at 6 p.m. and was a very imposing ceremony. The Archbishop and a large number of clergymen attended. The parish priest of the Merced preached from an improvised pulpit in the open air, and Dr Anelros laid the first stone, after blessing the site. The ceremonies lasted more than three hours.

The heat yesterday made everything unbearably dull. There was neither business nor pleasure going on, and a mild shock of earthquake would have been a refreshing 'novedad.' The signs of rain in the morning disappeared as the day wore on.

The Minister of Education has given 3000 pats to start the Pedagogues' Conference we are to have at the Exhibition. This is a very stiff sum, and we hope the schoolmasters will give the public something more than barren talk for its money. Between Pedagogy, and Poetry, and Fencing, and all the other 'ings' and 'ys' extraneous and out of place at an Industrial Show, there is danger of less practical good arising from the Exhibition than ought to be got out of it. Our visitors come to look at raw materials and agricultural machinery, and not to listen to raw versification and the clash of fencing foils.

We perceive that Messrs. Heidtmann & Co.'s mercantile printing establishment has been removed from Calle Bolivar to No. 172 Calle Peru, where all kinds of work is done, well done, quickly done, and, last and by no means least, cheaply done.

Our contemporary *Gil Blas* asserts that Her Majesty the Queen has commissioned Gounod to write a wedding march for Prince Leopoid's nuptials.

All the Electric Light proposals for the streets were thrown out yesterday by the Municipality, as the contract for gas has two years to run. In two years, at the rate the world is moving, the Electric Light may itself be out of fashion, or perhaps in full blaze 'Quien sabe?'

The 'cocheros' on strike were very 'triste' yesterday owing to a rumour that the Municipality would not allow them to 'lob' about town, but compel them to use the stands in the Plazas, the rent of which has been raised by the 'contratista' to $30 a day. This is monstrous on the poor Jehus.

There was a royal row at the Circo Rafteto on Monday night, caused by a Cuban Clown singing a song called 'The British Packet'. What was objectionable about the song we really do not know. Our esteemed predecessor was called the *British Packet* and was a most inoffensive journal.

The news from the Interior is anything but pleasant. In Cordoba Tucuman, Santiago, Catamarca and Salta the heat is so truly tremendous and the drought has lasted so long that grass, maize, sugar-cane in fact everything is burned to a cinder. We had a letter yesterday from a white subscriber in the Chaco and he assures us that he never expects to look white again, so thoroughly has the sun spoiled his complexion.

The smash on the Southern Railway was much spoken of yesterday, and the public are decidedly nervous about a collision occurring on a line with a single track. The Provincial Minister, on hearing of the accident, immediately ordered an official inqure. It is said that the smash occurred through the station master at Chascomus omitting to telegraph to Gandara that the goods train had started from the former station. The drivers of both trains saw each other fully ten squares off, but could not stop in time, and jumped off. Six trucks and two breaks of the goods train were smashed, also one engine, but the other escaped better. In the passenger train there were only seven persons, three of them ladies. The steam being shut off and the brakes put down, the speed of the trains was not very great when they met. On news of the accident reached Chascomus all the 'autoridades' there set out at once for the scene of disaster; the injured were taken to that town, and were reported yesterday to be doing well. Mr Cooper, the manager, was at Tandil when the accident occurred and was at once telegraphed for. The first man on the scene with assistance was the station master at Gandara with a gang of navvies, and Mr John Laplace, who brought necessaries for the injured. The disaster appears to have occurred through the goods train starting (contrary to custom) from Chascomus before the down passenger train had arrived there.

ON 'CHANGE.

Feb. 14th

Patacons.....	25.05
Cedulas A.....	99¾
Cedulas E.....	83½
National Bank Shares..	127½
National Bonds 1863...	86

There is a dead pause in affairs in general reflected by the very limited transactions on Change. Operations in gold, Cedulas, Shares and other stocks are small, at the same time that there is little doing either in exports or imports. On Change the news of the day was that Governor Rocha will soon present his message on the new Capital; it is known on Change that there is a clause in the Bill to the effect that an omission will be made of 8,000,000 pats at 6 o/o; this loan to constitute an Internal debt. Therein are included the cost of new buildings, of port in the Ensenada, channel, &c.

The gold market continues very flat; outside the ring large amounts were sold during the day at 25.02 and 25.03 for cash. But operations in general do not amount to much. Gold was sold for end of month at 25.05, which shews more than anything else how weak the gold market is at present.

The business in Cedulas was so insignificant that it is not worth mentioning 3,000 Cedulas constituted the total business of official hours

In National Bank Shares there seems to be a daily uniformity of prices. Rates opened firm and gave way slightly. Many know already what the Comision de Cuentas will report at the approaching meeting. The ridiculous charges against the Bank, published by some newspapers, will be simply contradicted by the evidence of figures. The great stress laid on large credits in the Interior provinces turns out to be a farce, since the limits of credit allowed to individuals by the sucursals is limited to 6,000 pats. So much for abuse of credit. As regards the question of protested bills, it may be as well to state that same in all the sucursales put together only amount to 150,000 pats. The protested bills of the head establishment here amounted to 600,000 pats, but much of this money has already been recovered; thus it would appear that credits in the Interior provinces bear an enviable comparison with those of the capital. In the provinces all applications for over 6,000 pats must be presented to the head establishment in this city. Furthermore, the Comision de Cuentas has studied every sucursal in detail, and in the report will figure the capital and working of each. Figures are the best arguments against charges that arise more from a speculative imagination than from any solid basis of argument.

There appears to be an improved feeling in Municipal Bonds. It is currently stated by some that arrangements have been made whereby the old debts will be wiped off, and the Municipality will open a new omission, guaranteed by the National Government. The rumor is a favorable one to the stock, but it is well not to give too much credence to rumors.

Some National Bonds were sold to-day at 86.

The sales at the ring were as follows:—

Gold—
For Feb. 28th 25,000 at 25.10-05

The Mortgage Bank has rented a house in Belgrano for the branch in that suburb.

It is rumored that Mr Unzue's beautiful house on the Flores Road will be the future sucursal of the Provincial Bank. The Board of Directors could not fix a better site than this charming Italian villa.

The manager of the new branch of the Provincial Bank in Flores was seen on the Flores Road yesterday, glancing at the various quintas that adorn the road, with a view of ascertaining their position and value.

There are large numbers of cattle offering for sale, but sellers are so lazy that they refuse advantageous offers on condition that the stock be placed on estancia of the buyer.

There is a great scarcity of Apollinaris water in the market at the present moment. The small bottles cannot be had at all. This is as bad as in Montevideo, where people can get no Seltzer water in the fashionable hotels.

Mr Modet was welcomed On 'Change today.

Another meeting of the San Jose de Flores Water-supply committee will be held at the Juzgado of that charming suburb on the 15th inst. Neighbors should show more interest in the matter and punctually attend the meeting. It is a question of to be or not to be.

Passengers to Montevideo complain very much of the treatment and accomodation on board the steamers of the service between both ports. This is uncharitable and unfair on the part of a company that nets £10,000 sterling, or $50,000 per month, all contributed by a benevolent public. Not long ago, these steamers did not earn enough to pay for their coals.

Camp business is not overdone; 3,000 m/c per square cuadra has been offered to the widow of a wealthy Irish sheepfarmer for an estancia in Lujan of 1½ league; this means 4,800,000 m/c per league; but the offer was refused.

To-day at the Municipality it was decided that the streets of the Corso are to be the same as last year.

Permission was given to-day to the Empresarios of the Calle Florida Theatre to open on 17th inst.

There are no less than four different petitions before the Municipality to light the streets with electric light The Lord Mayor decided to-day that all must be rejected, as the Municipality has a contract with the Gas Company that has 2 years to run, and this contract must be respected. All electric light men must rest on their oars for another two years as far as the street lighting is concerned.

Dn Julio Arraga obtained to-day conditional permit from the Municipality to erect one of his great telephone wire pillars at a street corner on trial, first obtaining the consent of the neighbours.

Letters received to-day from Isla Verde, San Blas, Colorado and Rio Negro, give most favorable accounts of the camps down there, and all the cattle 'rodeos' show splendid increase; more stock is required down there, and people who have cattle for sale ought to drive them down to the Rio Negro where they would sell at 300 m/c al corte; good sheep are also scarce down there and worth 60 m/c al corte.

Some exchange done to-day at 49⅜-½.

Discounts, in paper are still difficult; in gold easy at 7 per cent.

3,000 sheep were sold to-day in Lobos at 33 m/c al corte.

The heat on 'Change was so oppressive that the Camara Sindical distributed fans among the members of the Bolsa.

The arrivals in the Once this morning were very small, and sales consequently limited; the station is empty, the principal buyers are German houses. Sheepfarmers send in their wools very slowly, according to letters received from the consignatorios. There was little doing in Constitucion, where the good wools are in much demand.

2000 Ensenada potro hides were sold to-day at 17½ rls; weight 33 lbs.

Messrs Martinez Gonsalez & Co. presented some time ago a petition to the Provincial Government of B. Aires, requesting an exemption from patents and Contribución Directa taxes on their starch factory in Caceros. The Government, willing to support the industrial enterprise, sent the petition to the Centro Industrial Argentino; the Club in question appointed a Committee to visit the factory and report on same. The visit was effected by Messrs Frechin, Cayol and Huergo, who declare that the property and factory of Messrs Gonsalez Martinez & Co. is the best in the Republic. On the strength of this report the Provincial Government will exonerate the establishment from taxes during some years.

This is the very best means of stimulating Argentine industrial enterprises, and the Provincial Governments of the Republic might follow the example. Only too often industrial attempts, especially in the Interior, are smothered in their infancy by a narrow minded policy of taxation and annoyance. Let the Governments foster industries and before many years have elapsed the country will boast more products, more prosperity, and more revenue. A liberal policy will bring down coal, quicksilver, petroleum, &c, from the provinces, where they lie bedded in immense layers.

6,000 hides of Messrs Rocca and Repetto of 65 lbs. have been sold at 47 rls.

1,800 salted potro hides have been sold at 17½ rls.; they belonged to the Repetto establishment.

100 pipes of tallow of Messrs Rocca and Repetto sold at 13¾ rls.

Cargo of bones and ash from a Gualeguay saladero sold at 22 pats per ton.

The following are the new Provincial Sindicos and Jueces Comisarios:—

Sindicos—
Juan Seré, Agustin Vidal, Francisco Bollini, Francisco Rezabal, Bernardo Cabral, Mateo Victorica, Antonio Lanusse, Christian Sommer, Alfredo Meabe, Cecilio M Girondo, Francisco G Monasterio, Antonio Saralegui, Eugenio Armengeaut, Carlos Sivori, Melchor Echagüe, Sebastian N Casares, Luis Gregoire, Toronato Martinez, Luis Logegaray, Felipe Ruiz, Ernesto Müller, Pedro Garlar, Hector Quesada, Tomas Rodriguez, Miguel Escobar.

Jueces Comisarios—
Belisario Hueyo, Pablo Dias, Eduardo Halbach, Juan B Repetto, Julio C Sanchez, Francisco Bustamante, Augusto Milberg, Carlos S Kroder, Prudencio Dupont, Domingo Grondona.

Through a printer's mistake we reported yesterday a sale of land in Trenquelanquen at the rate of 360,000 m/c per league; the price should have been 36,000 m/c per league.

The Engl. lugger May Queen, with a cargo of salt from Cadiz, has been wrecked on the Rio Grande bar.

A Montevidean colleague has received a telegram, under date New York, Feb. 11th, reporting Montevidean hides 24 cts. firm.

The following sales are reported in Montevideo:—
12,000 ar. mestiza wool, rates reserved.
12,000 ar. do, do
150 bordalesas tallow, Sta. Lucia, 1380 f.o.b.
2,000 American hides, 20 lbs., reserved rates.
6,000 Amer. hides, 21 lbs., at reserved rates; supposed to be higher than market quotations.

Messrs Ruano & Gomensoro have sold in Montevideo the 160 tons of coal of the Activ, English barque, at $7 on board.

At afterhours the excessive heat put a stop to business. Little was done in Nat. Bank shares, some 400 sold at prices at 127½-¾. The market closed at 127¾ for end of the month. Some small amount of gold were sold off at fractions above par.

The Umberto has arrived in Montevideo with 800 Italian emigrants; this is the best of news.

300 potro hides were sold to-day in Montevideo at 18 rls; do 10,000 American hides for March at reserved rates.

The Juez de Paz of Patagones, Mr Cordova, arrived here in the Villarino last Sunday. His visit is connected with Patagonian exhibits for the Continental Exhibition. Patagones will send its wine, whiskey, herbs, Indian ornaments and saddlery, etc.

The Government of the province has withdrawn the subventions formerly paid to the Justices of the Peace of Vecino, San Antonio de Areco and Patagones.

The fine Allan Line steamer Canadian, Capt. Menzies, arrived at Montevideo early this morning. Left Havre on 2o. January.

The English barque David has been chartered in Montevideo for a general cargo to Rio Grande at 32/6.

The National Government has paid to the Department of Nat. Engineers $f.20,000 for surveys of the new Chumbicha railroad in Catamarca. Few people are aware of the existence of this locality, which is the most commercial and prosperous of that far-off province.

The mails by the Villarino report heavy rains in the South and a great storm in the last days of January. The cattle and 'rodeos' in splendid condition and the increase exceptional.

A firm of this city has bought up the mines known as the Santo Domingo, and formerly the property of Messrs Achaval & Garcia.

We call the attention of our readers to the advertisement in another column, of the auction of estancia land in the partido of Las Flores. The auctioneers Messrs. Baltar & Quesada will sell same off by auction on the 17th. in lots from 150 to 600 squares; there is a station on the land; it was formerly known as the estancia 'La Colorada'. There is an estancia house on the land.

The mails from Rio bring the following news:—

"Exchange—

"Exchange hardened and Banks gradually raised their rate, until on 26th inst. they came out frankly at 21d. At this rate a good demand appeared. The rise was mainly due to the scarcity of money, but the firmness of rates in the North and South contributed to it. When the other Praças did not respond to the higher rates here and, money appearing, a demand arose greater than the Banks unassisted by private drawers could meet, rates had to give way.

"Since the 28th, when Banks retired to 20½ the reaction has been marked, and they had on the 30th to retire to 20¼ and the same day to 20⅛. On the 31st at an early hour the rate was also lowered and is now 20¼.

"Disquieting news has been received as to failures in France, and a monetary crisis there. The Bank of England rate is 6 o/o and is expected further to advance.

"Private paper has continued scarce and the margin has been small between it and Bank rate. There are now few bills offering at 20⅜.

"There has been an average business in francs, at rates from 453—465 reis per franc for Bank paper, and at 448—460 reis for Commercial.

On the Southern Railway
Lots from
150 to 500 squares of fertile Land
One lot of 989 squares (of 150x150)
Railway Station on the Land
Very low Price
Half cash, half on time with two years to pay.

For what you pay for rent you can acquire this land the sale of which will be effected by us.

In Our House,
51—San Martin—51
On Friday, February 17th
At 3 p.m.

We shall sell on the above conditions this magnificent camp which formed part of the Estancia 'La Colorada', situated in the partido of Las Flores. The Southern Railway, runs through the land and there is a station on the property.

As the camp is so well know for the excellent quality of its pastures, any praise would only be superfluous. The following lagunas are in the camp :—Del Sauce, del Medio, del Quemado, de la Naranja and others of less importance.

The land has been fractioned into 14 small lots and will be sold in one or more lots at option of buyers.

Lot Nro. 14 comprises the estancia house 'La Colorada', containing 6 rooms with papered walls, wooden floors and a surrounded by two corridors. There is a galpon 10 yards by 30 and another building of three rooms suitable for a mayordomo.

A fine quinta fenced and ditched. Besides there are 4 or 5 puestos in this fraction with zinc roofs. The superficial arrea is 1167 squares and 18,941 square varas with some fine lagunas.

The other fractions are of regular formation and have been made of small size to suit the wants of agriculturists as the soil is excellent and adopted for tillage. The building on these lots will be included in the sale.

For plans and other informotion apply at San Martin 51.

Splendid Thorough Bred RaceHorse Sires, Durham Bulls and Cows
Rams and Ewes.
In one word Liquidation of the celebrated establishment of
Patrick Reid, Esq.
In charge of JAMES CHURCH
Esq. Stud of
Las Barrancas
On Monday February 27th
at 12 o'clock

We shall sell the stock of above breeding establishment so justly famous for the many victories achieved on the turf by the excellent animals bred there.

Estancieros are well aware of the patience and untiring zeal displayed by Mr Reid informing this stud farm, as he selected and imported into this country, animals of great merit which have been under the immediate charge of Mr Church. Seldom is there an opportunity of this kind offered,and this is due only to Mr Reid's determination to retire from business.

Zeucne, San Jeane, Venus, Toscas, Pichon, etc, have given on our race courses ample proof of their blood by carrying off the highest prizes. With such facts before us, it would be quite superfluous to praise the breed of 'Las Barrancas'.

N.B. There will be a special train and carriages at the station to take out and bring back all parties interested.

On Friday, February 27th
At 4 p.m.

At our mart, San Martin 51, we shall sell to highest bidder over and above the conditional basis, [200,000 m|c per league] a splendid piece of camp situated in the partido of Tres Arroyos, land selected by a competent judge.

The quality of this land is unsurpassed according to statements of neighbours who have seen it, and we advise parties interested to inspect the ground and convince themselves of this fact.

There are still 6 bills due to the Government of 16,875 m|c each, payable on August 21st each year from 1882 to 1887 which make the business easy.

The neighbours are Messrs Ramon Udacte, Cayetano Farias, Bernardo Chapar and Juan Elizalde.

Detalles de las suertes num. 4 serie A Departamento Rio Seco, y los num. 7 serie B y num. 8 serie A Departamento de Tulumba.

La primera esta situada en la Pedania de la Candelaria; como a 20 leguas al Sud Este de la Villa Maria, linda al Norte y Este con terrenos fiscales y al Oeste con la suerte N. 7. Este campo es bueno, para todas clases de haciendas y sus pastos buenos y abundantes, tiene montes y algunas isletas de Chañares, las aguas a 2 varas en su mayor hondura. La segunda esta situada como 2 leguas al Nor Este del puesto de Fierro, linda al Norte con la suerte num. 4 espresada mas arriba.

Este campo es inmejorable, sus pastos superiores para toda clase de hacienda, tiene monte y el agua esta a dos varas; y la tercera esta situada en la Pedania de Mercedes, linda al Sud con la suerte num. 7 y a los otros rumbos con terrenos fiscales.

Este campo es de buenos pastos para toda clase de hacienda, las aguas alcanzan a 2 varas segun consta de los espedientes que existen en el archivo de este Departamento a que en caso necesario me refiero, en fe de lo cual firmo la presente en Cordoba a 27 de Enero de 1882.

COTTON IMPORTS INTO THE ARGENTINE REPUBLIC.

[*Report by Consul Baker, of Buenos Aires, to the State Department at Washington.*]

I have already acknowledged the receipt of your circular letter, requesting consular officers, in the interest of the cotton manufacturers of the U. States, to 'obtain such facts as are within their reach in regard to the trade of foreign countries in the various fabrics of that article,' especially the article of cotton yarns, and to this end inclosing a series of questions intended to secure very full and accurate information upon the character and amount of the cotton trade of the Argentine Republic, with particular reference to its trade in foreign yarns.

It appears from a tabular statement which you also enclose that the export of cotton yarns from England for the year 1878 amounted to 250,838,600 pounds, valued at $63,366,356.70; and the greater part of your questions has reference to that portion of this yarn which may have been imported into the Argentine Republic.

In reply to these interrogatories, I have to inform you that no manufactories of cotton have yet been established in this country. I do not think there is a single loom in any of the provinces; and the returns of Argentine trade and commerce for the year named show that not a pound of the cotton yarn described by you was entered at any of the Custom Houses. The only cotton yarns which find a market here are manufactured threads for sewing purposes.

The cotton threads to Chile and Uruguay of course do not legitimately belong to those countries, having only passed through them to the upper provinces of the Argentine Republic. The greater part most probably were original shipments from England, so that about twosthirds of the manufactured cotton threads consumed by the Argentine people is the product of Great Britain; while the United States, in spite of its immense annual cotton crop, only sends three thousand dollars' worth in 1878, and four hundred and sixty dollars' worth in 1879!

In proceeding to give the information requested in the remainder of your interrogatories, I would repeat, as there is not a cotton mill in the country, that all the cotton fabrics consumed in the Argentine Republic are of foreign manufacture. In some of the upper provinces there is a kind of cotton cloth made by hand, for the use of the gauchos and Indian half-breeds, but it is exceedingly crude and unfinished in its appearance.

The Argentine trade returns give the following figures in regard to the importation of cotton fabrics during the last five years:—

	Total value
1875.....	$4,102,170
1876.....	2,989,120
1877.....	4,933,362
1878.....	5,555,647
1879.....	5,213,852

The imports of cottons into the Argentine Republic in 1878 were about 37,726,500 yards, whose official Custom House value was $3,406 425; and reducing the kilograms to pounds we have about 5,580,000 pounds, whose Custom House value was $2,149,222; total value of cotton fabrics imported during the year 1878, $5,555,647. Of this amount England furnished $3,183,149; to which may be added what is credited to 'transit,' Chile and Uruguay (the original shipments being from England), making a total of $5,014-097 furnished by England, and leaving only $541,550 as the amount furnished by all other countries.

The figures for 1879 show but little improvement so far as the U. States are concerned, and still more decidedly exhibit the supremacy of the English cotton trade.

The imports of cottons into the Argentine Republic in 1879 were about 12,947,700 yards, whose official custom house value was $1,321,-335; and reducing the kilograms to pounds we have about 10,330,000 pounds, whose custom house value was $3,892,467; total value of cotton fabrics imported into the Argentine Republic for the above year $5,213,852. Of the above amounts England furnished about 8,960,000 yards and 6,150,000 pounds, whose aggregate value was $3,181,559. To this may properly be added, for the reasons already stated, the amounts credited to 'transit,' Chile and Uruguay; making a total of cotton fabrics furnished by England to the Argentine Republic in 1879 of $4,432,689, leaving only $781,163 as the value of the cottons furnished by all other nations.

The value of the cotton fabrics received from the United States in 1879 shows a small increase on that of the previous year, though the increase is not so decided as that of Belgium and Germany.

The circular of the Department desires me to send samples of all such cotton fabrics of English, European, or American manufacture as find a sale in the Argentine Republic. I have delayed marking up this report in the hope of being able to comply with this request, but I find that it is quite impossible for me to do so. I have offered pecuniary inducements to parties interested in this special trade to obtain samples of such fabrics as are specified in circular, but, after a few ineffectual efforts, they have abandoned the attempt as impracticable. In the first place, they explain that, owing to the immense variety of the cotton manufactures, all of more or less repute, which are imported into this country, it would be an undertaking beyond their power, unless extraordinary inducements were offered, to secure a full line of samples; and in the second place I would add that there is a general reluctance on the part of importers and dealers to furnish samples for the purpose for which these are asked. And very naturally. Those who have built up a market here for certain marks and styles of goods wish to retain the exclusive control of that trade, which they cannot expect to do so well if they offer others an opportunity to enter the market with goods of the same textures, qualities, specialities, marks, etc.

I would state, however, that in regard to the widths and lengths in which piece goods are put up, there is about the same variety here that the market of New York City exhibits. In the city trade will be found in equal favor the same quality of cotton fabrics having various widths, though 32 inches is the favorite; but the goods are generally put up in pieces of 20 yards each, that size having the preference with merchants and people of the interior towns and country. These and other details, however, of the Argentine trade in cotton fabrics must be learned by an actual personal experience. They cannot be embraced in a report like this. And I would repeat a suggestion heretofore made by me to the Department, that our American cotton manufacturers should combine together and send an agent to this country to obtain such exact information in regard to the wants and demands of the markets of the river Plate as will give them an intelligent idea of the situation, the kinds of fabrics best suited to this trade, the manner of doing business here, the terms on which shipments shall be made, with such other points as an approved expert, and no one else, fully understands, at the same time making the acquaintance of houses best prepared to do this particular line of business with the United States. This agent should bring with him full samples of such lines as our manufacturers are now furnishing the trade. Out of these samples the merchants here will make selections for trial, with particulars as to the mode of making up the goods to suit the market. Thus this agent would at the same time have the opportunity of legitimately securing all such samples of English and European manufactures as would be needful for the mills at home. The effect of such a thorough 'reconnaissance' as this would be invaluable to those who are seeking to secure the trade in cottons of the Argentine Republic, and would do more towards accomplishing the great object in view than any other means which could be adopted.

In regard to the charges which would be incurred on a shipment of the various kinds of cotton goods to this market, such as freights, insurance, exchange, commissions, guaranty, interest, discount &c., these are more or less conventional. Those who are in the trade know, far better than I can tell them, in regard to these matters. Different houses have different charges for the same service; and the surest way to avoid being imposed upon is for American shippers, by correspondence, to arrange these matters beforehand.

There are only a few American houses doing business as importers in this port. Among these I mention the following, and can recommend them as reliable and responsible: Samuel B. Hale & Co., Reconquista 32; C. S. Bowers & Co, Cangallo 277; A. C. Bean & Co, Piedad 73; C. S. Roberts, San Martin 44; F. S. Ropes, 25 de Mayo 89.

Of the English houses located in this port, who are more or less engaged in the import trade from the United States, I would name the following: Matthew Forrester & Co, Piedad 185; E Tornquist & Co, 35 Maipu; John Shaw, 338 Venezuela; Thomas Drysdale & Co, 88, Moreno; Moore & Tudor, 95, Maipu; Mallmann & Co, 15, Piedras; Mantels & Pfeiffer, 21 Chacabuco; Bates, Stokes & Co, 55, Maipu; Shaw Bros., 35, Piedras. I could embrace in this list a large number of English importing houses whose business relations are exclusively with Great Britain, but it is not deemed necessary.

It will be seen from what I have written and the statistics I have given that the Argentine trade in cotton fabrics offers a wide field for American enterprise. And our manufacturers should bear in mind that this trade is not for a day or a season; but, I may say, for all time to come. There can be no local competition for them to contend with. There are no cotton manufacturers in the Argentine Republic, and there will be none, certainly within the life time of the present generation; while the demand for cotton goods, already very considerable, will go on increasing with the growth of the country. The great bulk of this trade now belongs to Great Britain, simply for the reason that the leading importers of dry goods in this market are English houses, many of them being merely branches of establishments in London, Liverpool, or Manchester. It is this fact which causes the principal difficulty in getting American goods upon the market here. It is a difficulty, however, which, with proper effort, can be overcome. Trade has a tendency to keep in its "old rut," but it can be diverted by furnishing a better article cheaper or as cheap. The great thing is to establish a foothold here for American cottons; and this during the last year has been in process of accomplishment. Several English firms, and I would particularly refer to that of Mathew Forrester & Co., who knew the superiority of the cotton fabrics of the United States and their freedom from the dirt and sizing which have made some English manufactures so notorious in foreign markets, have succeeded in disposing of all the American goods they could procure, and they tell me the prospects of a more extended trade, if our American mills will afford them proper inducements, is most promising for the future. But these prospects may not be realized unless we assist them. Our milling interests must not wait for the trade of the River Plate to come to them. They must sent down here and by all available ways and means invite it. They must themselves take the initiative, and systematically show this people the superiority of their fabrics, and the advantage it will be to them to deal with the United States instead of England. The cottons trade of the Argentine Republic is worth securing, and it can be secured, but not without some labor.

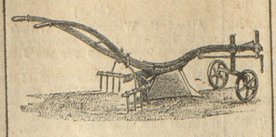
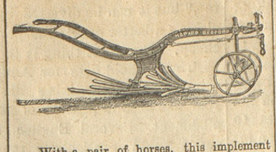
Howard's Water-Furrow Plough



This is a modification of J. & F. Howard's Ridging Plough. It is used for making the water furrows for surface drainage on arable land; the peculiarity of its working is tha the earth thrown up on each side of the furrow by the mould boards, is moved away from the edges of the furrow and is harrowed down level with the field, a level surface is thus left for the Reaping Machine, and drainage is facilitated.

With steel breasts, weight 1¼ cwt.

Howard's Potato Ploughs.



With a pair of horses, this implement will raise three to four acres of potatoes in a day; it leaves fewer in the ground than hand digging, and the roots are raised with less bruising or scratching of the skins than by any other method. These Ploughs have stood the test of many years experience, and the demand grows larger annually.

D, fitted as above, weight 1½ cwt.
D D, fitted as above, weight 1½ cwt.
S B, fitted as above, weight 1½ cwt.
B P, fitted as above, weight 2 cwt.

The above Machines kept in Stock by the Principal Hardware Merchants.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. "To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy,s Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Carlow Lay College

AND

ST. MARY'S PREPARATORY SCHOOL

Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.

Banco Hipotecario

Esta abierto al servicio publico todos los dias de trabajo desde las diez de la mañana hasta las cuatro de la tarde.
